

## WE NEED A HOME

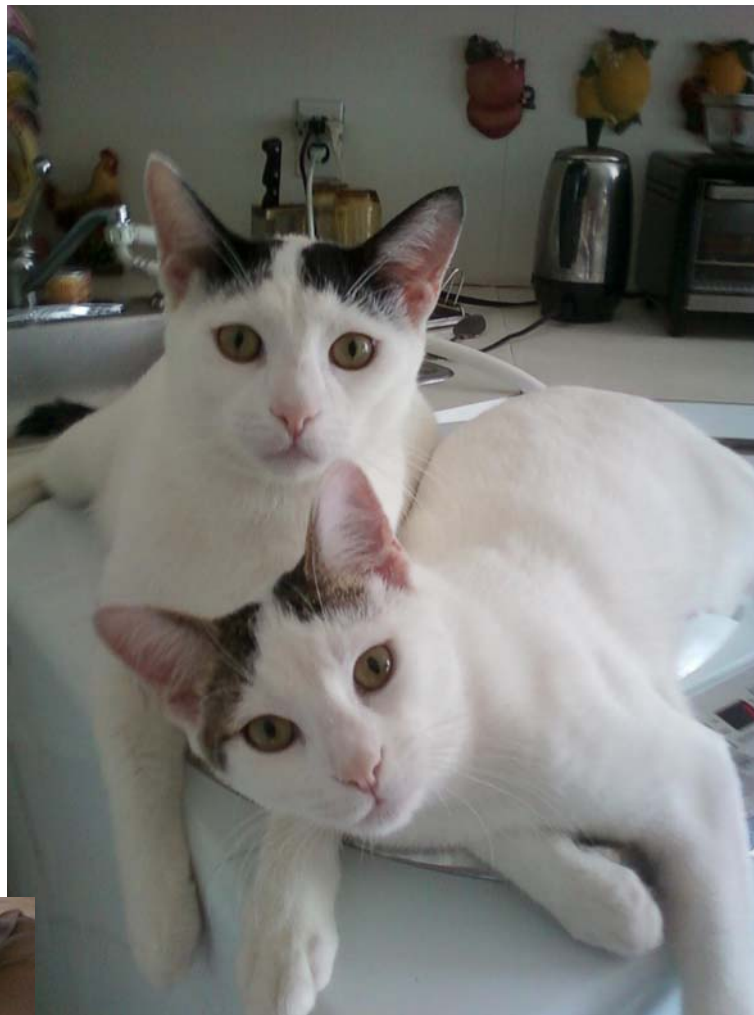

Tom & Jerry were adopted out from Bobbi & The Strays as kittens. Unfortunately a family member became very allergic to them and had to give them back to us. But, fortunate for us they are wonderful, handsome, loving, affectionate and perfect! Tom rolls on his back, like a dog, and loves his belly rubbed. Jerry is shy at first but then loves affection. Neither ever takes out their claws, they'll just squirm away when they are done with affection time.

Their birthday is soon - August 1st - they will be 1. How about giving them a great birthday present - a new home!

They are neutered, up to date with vaccines and tested negative for feline AIDS and Leukemia.
